LE SALON EUROPÉEN DE LA MOBILITÉ
THE EUROPEAN MOBILITY EXHIBITION

PARIS EXPO/PORTE DE VERSAILLES 8-10 June 2010

Mai 2010

European Mobility Exhibition Announcing the ten finalists for the Public transport Innovation Awards

Mobility is a dynamic sector which relies on innovation to respond to the growing demand for mobility, quality of service and care for the environment. From June 8-10 in Paris, Transports Publics 2010, the European Mobility Exhibition, offers an opportunity to find out all about the latest technological and organisational innovations of the 220 international exhibitors taking part in the event.

The Public Transport Innovation Awards, presented during the Exhibition under the auspices of the French Ministry for Sustainable Development in partnership with Veolia Transport and Transport Public magazine, will be honouring the best innovations by industrial and service companies in three categories.

An expert panel, including personnel from the Ministry for Sustainable Development, the ADEME (French Environment and Energy Agency), the Lausanne Polytechnique and the Transport Economy Laboratory, has now announced its shortlist for each of the categories:

"Energy and environment" finalists

- Driver Aid: embedded driver assistance software from Actia Automotive
- Parkeon's eco-design process
- Iveco France's Citelis and Access'Bus GX 327 and 427 ranges

"Intelligent transport systems" finalists

- E-nove: embedded, open-source, forward-compatible IT infrastructure from Geensys
- BluePass: real-time passenger information on mobile phones, by Embedia
- SISMO: ERG Transit Systems and Cityway' integrated travel services system for the Oise

"Accessibility, fittings, facilities and design" finalists

- OPTYMO: bus ticket purchasing by SMS, from Orange Business Services
- Public Call Point by Milesys
- Multimodal Information System for green-mode public transport vehicles from INEO Systrans
- Cirrus: modular, self-powering, ad-free eco-design bus shelter from Nord Technique-Urbanéo

The three winning innovations from these shortlisted entries will be announced at the **official Trophy Awards ceremony: 5pm on Tuesday, 8 June at the Carrefour de l'Europe.**

The full list of candidates features on the next page.

For more details about any of the innovations presented at the Transports Public 2010 exhibition, consult the exhibitor summaries at www.transportspublics-expo.com

Full list of entrants for the Public transport Innovation Awards

- **"Energy and environment"**

- Driver Aid: embedded driver assistance software from Actia Automotive
- Citysphere: compact, modular air-conditioning system powered by Webasto's hermetic refrigeration system
- WIPOST - catenary-free solution for Translohr trams on tyres from LOHR industrie
- "Automated car-pooling for events" from La Roue Verte
- Parkeon's eco-design process
- EcoManager: intelligent telematic solution for monitoring driving styles and fuel use from 21st Century Technology Solutions
- Iveco France's Citelis and Access'Bus GX 327 and 427 ranges
- Hybrid Solaris Urbino 12 from Solaris
- Systra's permeable tramway track bed with track laid on longitudinal beams
- Mercedes-Benz' Citaro G Blue Tec®-Hybrid, combining a standard hybridisation system and a lithium-ion battery unit

- **"Intelligent transport systems"**

- E-nove: embedded, open-source, forward-compatible IT infrastructure from Geensys
- SAMI, integrated maintenance assistance system from Actia Automotive
- Socel Visionor's Autonomous Embedded Passenger Information System
- Safety Eye: a compact, flexible system enabling remote, real-time fleet management, by Vision Systems Automotive
- DavisWeb Hosting: a system for passenger counting and statistical analysis of production from DILAX France
- B.A.I.A., solar-powered bus stop information terminal from SNEF
- Safety contract: the first safety contract for disabled lifts and ramps, from Dhollandia
- PAM: Multiservice Call Point by Milesys
- BluePass: real-time passenger information on mobile phones, by Embedia
- SISMO: ERG Transit Systems and Cityway' integrated travel services system for the Oise
- Thales' Hypervisor: innovative integrated, modular and intelligent supervision solution
- ECD 30: cash deposit / cash and ticket dispensing module, adaptable for all types of operation, by Monetik.

- Hastus-ATP: tool for analysis, comparison and planning of run times from GIRO
- Navibus: large-scale navigation system for passenger transport from Moviken-SLE
- Deptick 200/Quireo: automatic processing of user traffic and accounts solution by Traidis
- Tactileo: touchscreen console offering drivers easy access to all operational functions, by INEO Systrans

- **"Accessibility, fittings, facilities and design"**

- MiniMetro: urban rail transport system with continuous vehicle movement, propelled by a single cable, from Pomagalski
- Citipro seat system: multipurpose seats for all transport modes from RUSPA Officine S.p.A.
- Mekaboy system, designed and calibrated to install and remove disabled ramps, from ACE Ingénierie
- MX seats: light, interchangeable and adaptable; by STER Sp. ZOO
- PRINTSIGN no. Graf.,: long-lasting, highly resistant adhesive coating from Graphibus
- L'Access'Bus GX 127, a 3-door bus version by Heuliez Bus
- Access for reduced-mobility and partially-sighted users to public transport ticketing facilities from Parkeon
- OPTYMO: purchasing bus tickets by SMS, from Orange Business Services
- Public Call Point by Milesys
- Vertical bike parking system by VelParc
- Multimodal Information System for green-mode public transport vehicles from INEO Systrans
- Cirrus: modular, self-powering, ad-free eco-design bus shelter from Nord Technique-Urbanéo
